- Password Protected
- Supports up to 5 Users
- IP Configuration via TCP/IP and RS-232
- Flexible control of several types of matrixes and other SmartAVI products.

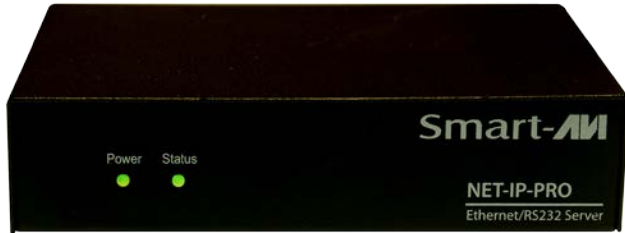

APPLICATIONS

- Wall Displays
- Digital Signage
- Airports
- Dealer Rooms
- Control Rooms
- Audio/Visual Presentations
- Shopping Centers
- Security
- Point-of-Sale
- Hotels/Resorts

OVERVIEW

The Net-IP-Pro is an RS-232 control module that allows many SmartAVI products, including a variety of matrixes, to be controlled remotely via HTTP or TELNET. Users can manage numerous functions with ease from anywhere in the world. With Net-IP-Pro, users can save input/output configurations for easy access. TELNET access provides transparent command control of matrixes and other products, and is able to be used with automated third-party control software.
